Students at the emergent counting stage

Students at this stage are unable to correctly count collections of up to ten objects They do not know all the number words and cannot coordinate the number words they know with items when asked to count a collection That is, they cannot consistently match one number word to one item in the collection

School-Wide Counting Collections

Later on, students develop a richer understanding of how our base-ten number system is structured and begin to make use of place value to count more efficiently This is often done using tools like a ten-frame or cups to hold groups of ten In the past we have often not given students enough practice counting and writing numbers far beyond 100
